Results of this study were gathered through survey and interviews with the
employees of the accounting and administrative offices of the selected government
agencies who are involved in the management of funds.

Based on the results of the study, the researchers recommended that SPDB
maintain their current policies in managing their funds. The researchers also
suggested that PENRO and DPWH train their employees, especially those in the
accounting and administrative section, about the management of funds for them to
better understand the system and appreciate more their work as part of the
management of funds of their government agency.

Keywords: funds, government agency, management, corruption
