# ALL ABOUT NEXO

*“Let every man praise the bridge that carries him over.”*

~ English Proverb

The word is Spanish for Nexus.

Lexipedia defines it as the process of bringing ideas or events together in memory or imagination. It is a fastener that serves to join or connect.

Hence, it is a bridge, a connect, a line that links one to the other end of the spectrum.

This is the context from where the first Letran Calamba's Peer reviewed Journal, which we call Nexo, is coming. It takes off from the Department's Journal of Institutional Research, which had been in existence for years.

Seen through this lens, research purportedly bridges the gap between instruction and extension, between research and other spheres of the academia such as training and development, and work force empowerment.

As a research tool, this is what Nexo aspires to achieve.

## EDITORIAL BOARD

### **Production Assistant**

Ms. Magnolia R. Quiatchon

### **Editor-in-Chief**

Dr. Roberto DV. Revilla

### **Editorial Adviser**

Dr. Floricon V. Encabo
