# Foreword

*It is with great pleasure that we present this journal, SUBIR Volume 3, showcasing the data analysis initiatives at Colegio de San Juan de Letran Calamba. This collection of research articles demonstrates the power of data analysis to inform and enhance various aspects of our institution, from academic programs and student experiences to administrative processes and health and wellness initiatives.*

*This volume showcases the breadth of data analysis application across Letran Calamba. Readers will find studies examining program outcomes for graduates in Hospitality Management, Tourism Management, various programs in Engineering, Computer Studies, and Business Administration, providing valuable insights for curriculum development and student support. Data related to payment trends, COVID-19 cases within the Colegio, and the effectiveness and utilization of our library resources were explored in this volume. Furthermore, SUBIR Volume 3 features analyses of student and institutional research programs, class scheduling efficiency, and the timeliness of financial operations.*

*The diverse topics covered in this journal underscore Letran Calamba's commitment to data-driven decision-making and continuous improvement. We commend the authors for their diligent work and insightful contributions, which reflect the dedication of our personnel to advancing knowledge and enhancing the Letran Calamba experience. We trust that this publication will serve as a valuable resource for the entire Letran community and inspire future researchers.*
